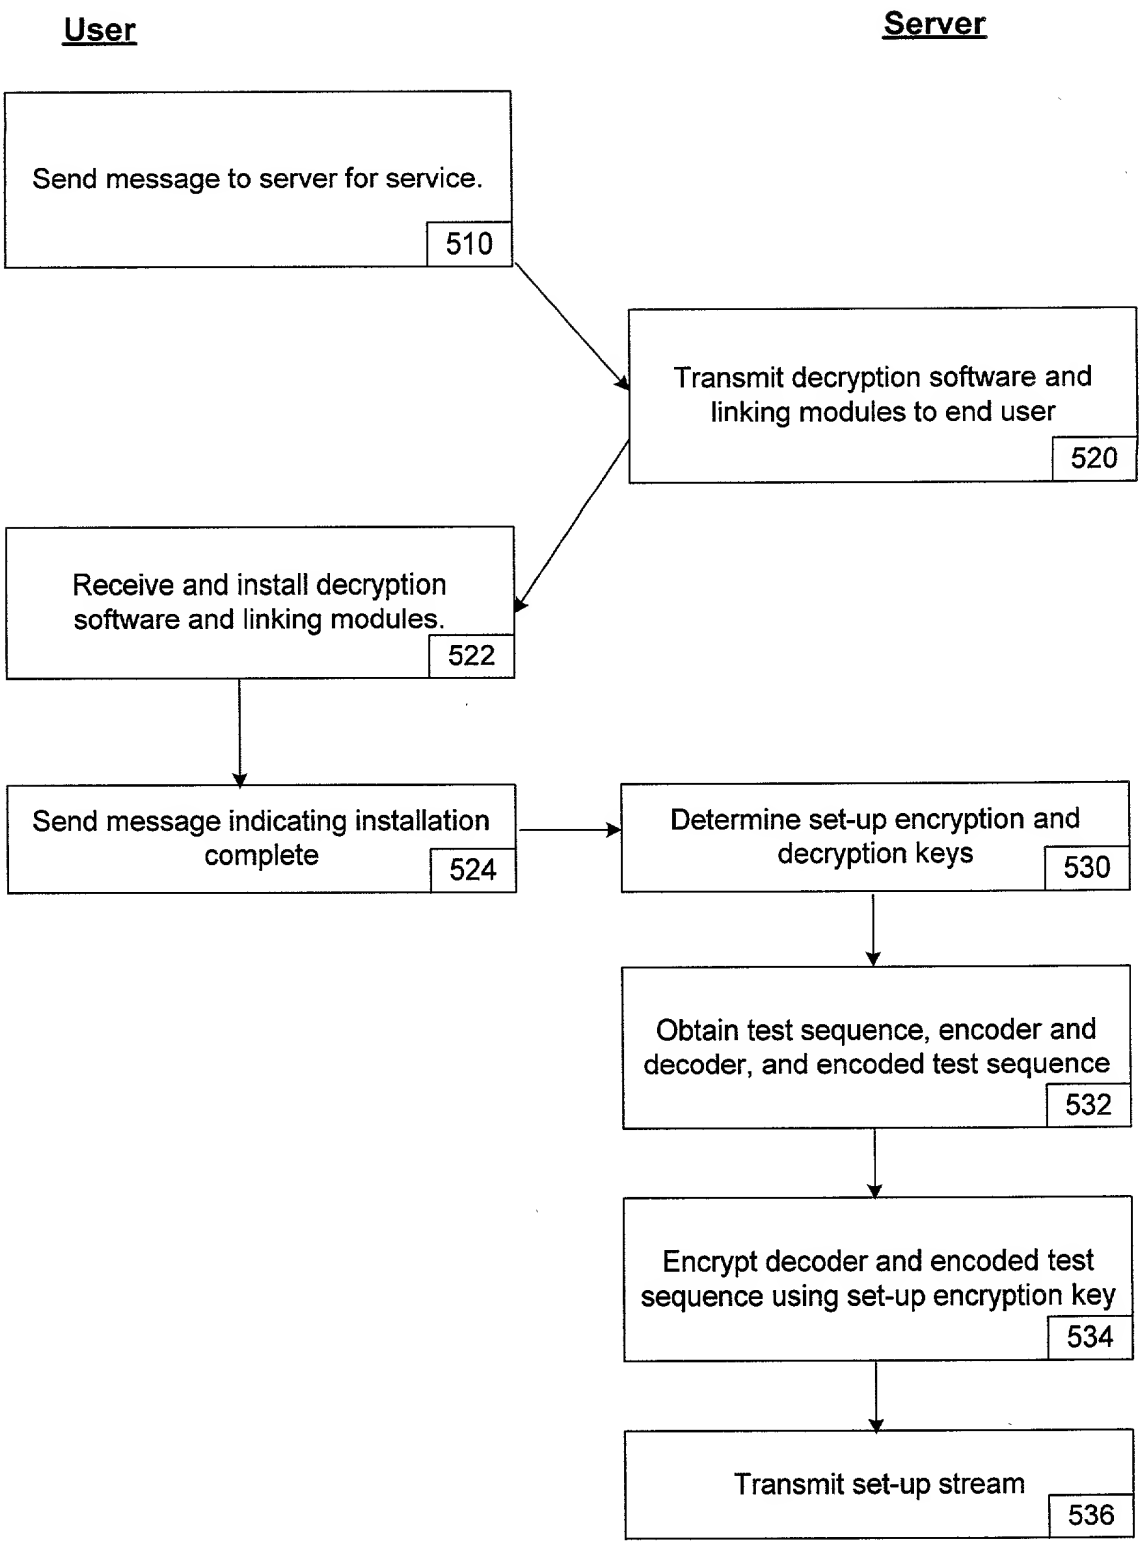
Operating System (Windows, Linux)
Device Drivers (Disk, Tape, Display)
Conventional Software (Word, Autocad, E-mail, Internet Explorer)
Data Encoder (Zip, LZW, Windows Media Encoder)
Data Encrypter
Data Streamer (Windows Media Player, Internet Explorer)
Data Transport (Internet, VPN)

Fig. 4



User
Server
Send message to server for service.
510
Transmit decryption software and linking modules to end user
520
Receive and install decryption software and linking modules.
522
Send message indicating installation complete
524
Determine set-up encryption and decryption keys
530
Obtain test sequence, encoder and decoder, and encoded test sequence
532
Encrypt decoder and encoded test sequence using set-up encryption key
534
Transmit set-up stream
536
